Resolved, that the Rules of the Committee on Financial Services for the 116th Congress shall be:

RULE 1

GENERAL PROVISIONS

(a) The rules of the House are the rules of the Committee on Financial Services (hereinafter in these rules referred to as the “Committee”) and its subcommittees so far as applicable, except that a motion to recess from day to day, and a motion to dispense with the first reading (in full) of a bill or resolution, if printed copies are available, are privileged motions in the Committee and shall be considered without debate. A proposed investigative or oversight report shall be considered as read if it has been available to the members of the Committee for at least 24 hours (excluding Saturdays, Sundays, or legal holidays except when the House is in session on such day).

(b) Each subcommittee is a part of the Committee and is subject to the authority and direction of the Committee and to its rules so far as applicable.

RULE 2

In General

(a)(1) Meetings and hearings of the Committee shall be called to order and presided over by the Chair or, in the Chair's absence, by a member designated by the Chair to carry out such duties.

The content of all materials must relate to the pending business of the Committee and conform to the rules of the House. The confidentiality of the material will be maintained by the technical staff until its official presentation to the Committee members. For the purposes of maintaining the official records of the committee, printed copies of all materials presented, to the extent practicable, must accompany the presentations.

(5) No person, other than a Member of Congress, Committee staff, or an employee of a Member when that Member has an amendment under consideration, may stand in or be seated at the rostrum area of the Committee rooms unless the Chair determines otherwise.

Quorum

(b)(1) For the purpose of taking testimony and receiving evidence, two members of the Committee shall constitute a quorum.

(2) A majority of the members of the Committee shall constitute a quorum for the purposes of reporting any measure or matter, of authorizing a subpoena (other than a subpoena authorized and issued by the Chair pursuant to subsection (e)(1)), of closing a meeting or hearing pursuant to clause 2(g) of rule XI of the rules of the House (except as provided in clause 2(g)(2)(A) and (B)) or of releasing executive session material pursuant to clause 2(k)(7) of rule XI of the rules of the House.

(3) For the purpose of taking any action other than those specified in paragraph (2) one-third of the members of the Committee shall constitute a quorum.

(3) No vote by any member of the Committee on any measure or matter may be cast by proxy.

(4) In addition to any other requirement of these rules or the Rules of the House, including clause 2(e)(1)(B) of rule XI, the Chair shall make the record of the votes on any question on which a record vote is demanded publicly available for inspection at the offices of the Committee and in electronic form on the Committee's Web site not later than one business day after such vote is taken. Such record shall include in electronic form the text of the amendment, motion, order, or other proposition, the name of each member voting for and each member voting against such amendment, motion, order, or proposition, and the names of those members of the committee present but not voting. With respect to any record

vote on any motion to report or record vote on any amendment, a record of such votes shall be included in the report of the Committee showing the total number of votes cast for and against and the names of those members of the committee present but not voting.

(5) POSTPONED RECORD VOTES.—(A) Subject to subparagraph (B), the Chair may postpone further proceedings when a record vote is ordered on the question of approving any measure or matter or adopting an amendment. The Chair may resume proceedings on a postponed request at any time, but no later than the next meeting day.

(B) In exercising postponement authority under subparagraph (A), the Chair shall take all reasonable steps necessary to notify members on the resumption of proceedings on any postponed record vote.

(C) When proceedings resume on a postponed question, notwithstanding any intervening order for the previous question, an underlying proposition shall remain subject to further debate or amendment to the same extent as when the question was postponed.

(D) The Chair's authority to postpone recorded votes will not be used to prejudice a member with regard to the offering of another amendment. In the application of this rule, the Chair will consult regularly with the ranking minority member regarding the scheduling of the resumption of postponed votes.

Hearing Procedures

(d)(1)(A) The Chair shall make public announcement of the date, place, and subject matter of any committee hearing at least one week before the commencement of the hearing, unless the Chair, with the concurrence of the ranking minority member, or the Committee by majority vote with a quorum present for the transaction of business, determines there is good cause to begin the hearing sooner, in which case the Chair shall make the announcement at the earliest possible date.

(B) Not less than three days before the commencement of a hearing (excluding Saturdays, Sundays, and legal holidays except when the House is in session on any such day) announced under this paragraph, the Chair shall provide to the members of the Committee a concise summary of the subject of the hearing, or, in the case of a hearing on a measure or matter, a copy of the measure or materials relating to the matter in question and a concise explanation of the measure or matter to be considered. At the same time the Chair provides the information required by the preceding sentence, the Chair shall also provide to the members of the Committee a list of the witnesses expected to appear before the Committee at that hearing. The witness list may not be modified within 24 hours of a hearing, unless the Chair, with the concurrence of the ranking minority member, determines there is good cause for such modification.

(2) To the greatest extent practicable—

(A) each witness who is to appear before the Committee shall file with the Committee two business days in advance of the appearance sufficient copies (including a copy in electronic form), as determined by the Chair, of a written statement of

proposed testimony and shall limit the oral presentation to the Committee to brief summary thereof; and

(B) each witness appearing in a non-governmental capacity shall include with the written statement of proposed testimony a curriculum vitae and a disclosure of the amount and source (by agency and program) of any Federal grant (or subgrant thereof) or contract (or subcontract thereof) received during the current fiscal year or either of the two preceding fiscal years. Such disclosure statements, with appropriate redactions to protect the privacy of the witness, shall be made publicly available in electronic form not later than one day after the witness appears.

(3) The requirements of paragraph (2)(A) may be modified or waived by the Chair when the Chair determines it to be in the best interest of the Committee.

(4)(A) Subject to subparagraph (B), the five-minute rule shall be observed in the interrogation of witnesses before the Committee or any of its subcommittees until each present member thereof has had an opportunity to question the witnesses. The Chair shall, so far as practicable, recognize alternately based on seniority of the majority and minority members present at the time the hearing was called to order and others based on their arrival at the hearing. The Chair shall, so far as practicable, defer to the Ranking Member with respect to the order of recognition for minority Members. No member shall be recognized for a second period of five minutes to interrogate witnesses until each present member of the Committee or such subcommittee has been recognized once for that purpose.

(B) The Chair may permit a specified number of members to question one or more witnesses for a specified period of time not to exceed 60 minutes in the aggregate, equally divided between and controlled by the Chair and the ranking minority member.

(5) Whenever any hearing is conducted by the Committee on any measure or matter, the minority party members of the Committee shall be entitled, upon the request of a majority of them before the completion of the hearing, to call witnesses with respect to that measure or matter during at least one day of hearing thereon. The Chair, with the concurrence of the ranking minority member, will determine the date, time, and place of such hearing.

(6) At any hearing of the Committee, opening statements by members of the Committee shall be limited to 10 minutes in the aggregate. The Chair shall control five minutes and recognize members in the Chair's sole discretion. The ranking minority member shall control five minutes; the Chair shall recognize members for such time according to the direction of the ranking minority member as communicated to the Chair.

(7) Notwithstanding any member's oral delivery of an opening statement, written opening statements by any member of the Committee submitted to the Chair within 5 legislative days after the adjournment of a hearing shall be made a part of the official hearing record thereof.

Subpoenas and Oaths

(e)(1) The power to authorize and issue subpoenas is delegated to the Chair. Unless there are exigent circumstances, the Chair will provide written notice to the ranking minority member at least 48 hours in advance of the authorization and issuance of a subpoena, and such notice shall include a full copy of the proposed subpoena, including any proposed document schedule.

(2) Authorized subpoenas shall be signed by the Chair or by any member designated by the Committee and may be served by any person designated by the Chair or such member.

(3) The Chair, or any member of the Committee designated by the Chair, may administer oaths to witnesses before the Committee.

RULE 4

PROCEDURES FOR REPORTING MEASURES OR MATTERS

(a) No measure or matter shall be reported from the Committee unless a majority of the Committee is actually present.

(b) The Chair of the Committee shall report or cause to be reported promptly to the House any measure approved by the Committee and take necessary steps to bring a matter to a vote.

(c) The report of the Committee on a measure which has been approved by the Committee shall be filed within seven calendar days (exclusive of days on which the House is not in session) after the day on which there has been filed with the clerk of the Committee a written request, signed by a majority of the members of the Committee, for the reporting of that measure pursuant to the provisions of clause 2(b)(2) of rule XIII of the Rules of the House.

On April 8, 2020, the Federal Reserve publicly announced that it would temporarily modify the restriction due to the need to facilitate lending in response to the pandemic-related economic crisis. The Committee's meticulous oversight of Wells Fargo and its regulators ensured that the Federal Reserve's modification was temporary, narrow, and in furtherance of the strong public interest in facilitating financial support to small businesses during the crisis.

This bill would change the property appraisal requirements for mortgages backed by the Federal Housing Administration (FHA) by allowing licensed appraisers to conduct appraisals for such mortgages, rather than only certified appraisers. This would bring FHA standards in line with those set by Fannie Mae and Freddie Mac. This bill would also set minimum requirements for education specific to FHA appraisals that appraisers must undergo to be eligible to conduct FHA appraisals. H.R. 3958, the “FHA Foreclosure Prevention Act of 2019,” introduced by Chairwoman Maxine Waters, included in the Heroes Act, would enhance FHA’s oversight of loss mitigation and establish a complaint and appeals process for borrowers who believe their servicer is out of compliance with FHA’s servicing requirements.

H.R. 748, the Coronavirus Aid, Relief and Economic Security Act (CARES Act), which became Public Law 116-136, included authorizations for the following multilateral institutions:

- Authorization for the U.S. to participate in, and contribute to, the replenishments of two concessional windows at the multilateral development banks—the 19th replenishment of the World Bank’s International Development Association (IDA-19), to which the U.S. pledged \$3 billion; and the fifteenth replenishment of the African Development Fund (AfDF-15), to which the U.S. pledged \$514 million.
- Authorization for the U.S. to participate in, and contribute to, the 7th general capital increase for the African Development Bank to which the U.S. pledged \$437 million of paid-in capital; Authorization to double the U.S. commitment to IMF’s emergency backstop facility, known as the New Arrangements to Borrow, or NAB, from \$39 billion to approximately \$78 billion.
- Authorization for the U.S. to vote for a capital increase for the International Finance Corporation (IFC), the private sector arm of the World Bank. This authorization was linked to an agreement with the World Bank to implement a critical package of reforms in the areas of human rights, transparency, public subsidies, and for-profit K 12 education.

Oversight over the International Financial Institutions. The Committee continued to monitor U.S. participation in the International Monetary Fund and its surveillance and lending activities and the effectiveness of the multilateral development banks in alleviating poverty and promoting sustained economic growth, particularly through a hearing by the Full Committee entitled “The Annual Testimony of the Secretary of the Treasury on the State of the International Financial System” on April 9, 2019 and May 22, 2019, with particular focus on the need for good governance, transparency, and accountability at these institutions in order to ensure that broad, international interests are being promoted.

Throughout the 116th Congress, Committee staff met on a regular basis with Treasury officials and representatives from the World Bank and regional multilateral development banks to discuss the Treasury Department’s requests for congressional authorization for the U.S. to participate in several general capital increases and replenishments for the multilateral development banks, as well as additional contributions to the IMF. At these meetings, staff discussed the Chairwoman’s reform priorities with respect to the World Bank and the International Finance Corporation.

On March 19, 2020, Chairwoman Maxine Waters organized a bipartisan Members' briefing, by teleconference, with Dr. Kristalina Georgieva, Managing Director of the International Monetary Fund (IMF), who gave Members on update on the impacts of COVID-19 on the global economy and the steps the IMF was taking in response.

On November 10, 2020, the Committee hosted a bipartisan staff briefing with members of the International Financial Institutions Working Group to discuss the role, and the efforts to date, of the World Bank and the International Monetary Fund in the international response to COVID-19, including an effective and sustainable recovery.

Members of the Committee offered the following legislation with respect to oversight over U.S. participation in the international financial institutions:

- An amendment similar to H.R. 5051, the Accountability for World Bank Loans to China Act of 2019, introduced by Representative Anthony Gonzalez, passed the House as part of H.R. 6395, the National Defense Authorization Act for Fiscal Year 2021, which became Public Law 116-_____.

- H.R. 6581, the Robust International Response to Pandemic Act, introduced by Representative Chuy García, which directed the Secretary of Treasury to support a \$3 trillion allocation of Special Drawing Rights (SDRs) by the International Monetary Fund to help developing countries respond to the health and economic impacts of the COVID-19 pandemic; and to advocate for a suspension of debt service payments by IDA countries to the international financial institutions. An amendment that is substantially similar to H.R. 6581, with a \$2 trillion SDR allocation and an additional provision directing the Treasury Secretary to work to extend the current moratorium on debt service payments by IDA countries to the G20 group of nations until the end of 2021, passed the House of Representatives as part of H.R. 7617, the FY2021 Consolidated Appropriations Act,
- H.R. 5698, the Promoting Secure 5G Act of 2020, introduced by Representative William Timmons, which passed the House of Representatives on September 21, 2019. This bill requires the Executive Director of each international financial institution to support institutional assistance with advanced wireless technologies only if they provide appropriate security for users, among other things. This measure was included as part of H.R. 6395, the National Defense Authorization Act for Fiscal Year 2021, which became Public Law 116-_____.

Global Poverty and Economic Inequality. On March 5, 2019, Chairwoman Maxine Waters led a delegation of Committee Democrats to the International Monetary Fund (IMF) where then-IMF Managing Director Christine Lagarde hosted a luncheon discussion about the IMF's central role in promoting global financial stability

and its role in developing countries in particular, followed by three briefings that discussed recent research at the IMF that showed, respectively, how income inequality can have a negative impact on growth; the importance of gender inclusion in sustainable growth; and lessons learned on crisis prevention and management from the great recession.

On September 25, 2019, at an event in the U.S. Capitol celebrating 75 years of U.S. leadership at the World Bank, Chairwoman Maxine Waters praised the Bank as the world's premier global development institution, while outlining specific reforms she viewed as critical to the Bank's legitimacy and relevance.

International Financial Architecture. On April 9, 2019, the Committee held a hearing entitled "The Annual Testimony of the Secretary of the Treasury on the State of the International Financial System." The Honorable Steven T. Mnuchin, Secretary, U.S. Department of the Treasury was the sole witness. On May 22, 2019, the Committee held Part II of the hearing entitled, "The Annual Testimony of the Secretary of the Treasury on the State of the International Financial System. The Honorable Steven T. Mnuchin, Secretary, U.S. Department of the Treasury was the sole witness.

IMF's 15th General Review of Quotas. During the IMF's 15th General Review of Quotas, the Treasury Department supported an agreement to maintain the IMF's overall lending resources by doubling the size of the IMF's emergency backstop fund, called the New Arrangements to Borrow (NAB), while reducing by a similar amount the IMF's bilateral borrowing arrangements, which were due to expire at the end of the year. To implement the terms of the agreement, the Committee authorized to extend U.S. participation in the NAB through December 2025, with a doubling of the U.S. contribution from \$39 billion to \$78 billion, which was initially included as part of H.R. 6321, the "Financial Protections and Assistance for America's Consumers, States, Businesses, and Vulnerable Populations Act," introduced by Chairwoman Maxine Waters on March 23, 2020, and was subsequently adopted as part of H.R. 748, the Coronavirus Aid, Relief and Economic Security Act (CARES Act), which passed the House on March 27, 2020, which was enacted into law as P.L. 116-136.

World Bank Group Capital Increase. On November 13, 2019, the Subcommittee on National Security, International Development, and Monetary Policy held a hearing entitled, "How America Leads Abroad: An Examination of Multilateral Development Institutions," which examined the Department of Treasury's request for Congressional authorization for a general capital increase for the International Bank for Reconstruction and Development (IBRD), the World Bank's middle-income lending window; and a general capital increase for the International Finance Corporation (IFC), the World Bank's private sector window. The hearing addressed the role of U.S. leadership in preserving the legitimacy of, and shaping policies at, the multilateral development banks; areas of development successes and shortcomings within these institutions; and opportunities for American-led reform.

International Bank for Reconstruction and Development. In December 2019, talks between the Committee and the World Bank regarding congressional authorization for the International Bank for

Reconstruction and Development's (IBRD) capital increase stalled over the Bank's plans for a controversial anti-labor indicator called the Employing Workers Indicator (EWI) in the Bank's annual country-ranking exercise called the Doing Business report. The EWI had been used to advance a one-sided deregulatory view of labor market policy and encourage governments to weaken worker protections with the purported aim of attracting foreign investment. Although the EWI was suspended in 2010, the Doing Business team continued to collect and publish the labor market regulation data for each country in its annual reports, and over the past decade, an anti-labor bias to re-emerge in the report's narratives. More recently, Doing Business appeared to be taking steps towards re-incorporating the EWI, and in its recent Doing Business 2020 report, the authors moved the labor regulation discussion from an annex back into the heart of the report, with its own chapter that overwhelmingly argued against labor regulations, especially in developing countries, using the same debunked argument that led to the indicator's suspension a decade ago—namely, that countries that deregulate their labor markets will achieve higher levels of job creation. The Bank's own independent evaluation unit found no evidence to support such a claim and concluded that “no significant association emerged” between the “Employing Workers” indicator and employment.

The impasse was resolved at the Committee's request through a letter from World Bank President David Malpass in which he committed not only to not reinstate the indicator but also to remove all country labor market regulation data from the annual report, which would effectively make the ten-year suspension of the EWI permanent. With this commitment for a major policy reform, Chairwoman Waters moved the authorization for IBRD's capital increase as part of H.R. 1865, the “Further Consolidated Appropriations Act, 2020,” which became Public Law 116–94.

International Finance Corporation. On January 25, 2020, Chairwoman Maxine Waters met with IFC CEO Philippe L'Houerou to discuss the IFC's capital increase request and a package of reforms that the Chairwoman said would be an integral part of the capital increase request process.

Authorization for the U.S. to support a capital increase for the International Finance Corporation (IFC) was originally included as part of H.R. 6321, the “Financial Protections and Assistance for America's Consumers, States, Businesses, and Vulnerable Populations Act,” introduced by Chairwoman Maxine Waters on March 23, 2020, and the authorization passed the House as part of H.R. 748, the Coronavirus Aid, Relief and Economic Security Act (CARES Act), which became Public Law 116–136. The authorization was linked to an agreement with the World Bank Group to implement a package of reforms advanced by the Chairwoman, including enhanced human rights assessments for IFC's investments in Burma; greater transparency and a move to increase the use of competitive bidding for public subsidies; a freeze on IFC's investment in commercial for-profit K–12 schools; concrete commitments with respect to transparency and public participation in the IFC's review of its accountability mechanism; and public disclosure of basic project information for all IFC's high-risk projects and many

of its substantial-risk projects that are channeled through commercial banks and other financial intermediary clients, which have long been some of the most opaque forms of IFC lending.

Replenishments of the International Development Association (IDA) and the African Development Fund (AfDF). On November 13, 2019, the Subcommittee on National Security, International Development, and Monetary Policy held a hearing entitled, “How America Leads Abroad: An Examination of Multilateral Development Institutions,” which addressed issues relating to the IDA and the AfDF. The following authorizations were initially introduced in H.R. 6327, by Representative Cleaver on March 23, 2020 and were also included in H.R. 6321, the “Financial Protections and Assistance for America’s Consumers, States, Businesses, and Vulnerable Populations Act,” introduced by Chairwoman Maxine Waters on March 23, 2020: authorizations for the United States to participate in the 19th replenishment of the International Development Association (IDA–15)19); the fifteenth replenishment of the African Development Fund (AfDF–15); and the 7th general capital increase for the African Development Bank. These authorizations were included in H.R. 748, the Coronavirus Aid, Relief and Economic Security Act (CARES Act, which became Public Law 116–136).

The International Development Association (IDA) and the International Finance Corporation (IFC). On July 25, 2019, Chairwoman Maxine Waters met with then-World Bank Group CEO Kristalina Georgieva and International Finance Corporation (IFC) Chief Operating Officer Stephanie von Friedeburg to discuss her concerns about the lack of transparency and competitive bids with respect to subsidies the IFC was giving to its private-sector clients with resources from the International Development Association (IDA), the arm of the World Bank that provides assistance to the world’s poorest countries. In response, the IFC announced that as of October 1, 2019, the IFC would publicly disclose the estimated subsidy for each proposed Private Sector Window project along with a justification for why the subsidy is necessary, though the IFC did not move towards a competitive approach with respect to subsidized financing to private firms. On November 13, 2019, the Subcommittee on National Security, International Development, and Monetary Policy held a hearing entitled, “How America Leads Abroad: An Examination of Multilateral Development Institutions,” which addressed issues relating to the flow of resources from IDA to the IFC.

On September 24, 2020, Chairwoman Maxine Waters and Senator Patrick Leahy wrote to the Government Accountability Office (GAO) requesting the GAO to analyze and review the long-term sustainability of the financing model of the International Development Association (IDA), which recently adopted a new financing framework that marked a fundamental shift in IDA’s approach to mobilizing resources by introducing market debt into its funding mix.

North American Development Bank. On September 20, 2019, the Committee favorably reported an Amendment in the Nature of a Substitute to H.R. 132, the “North American Development Bank Improvement Act of 2019,” introduced by Representative Henry Cuellar, which authorized U.S. participation in the first general capital increase for the North American Development Bank since its creation in 1994. H.R. 132 was enacted into law as part of the United States-Mexico-Canada Agreement Implementation Act, which became Public Law 116–113.

Food Security and Climate Finance. On September 11, 2019, the Subcommittee on National Security, International Development, and Monetary Policy held a hearing entitled, “Examining the Macroeconomic Impacts of a Changing Climate,” which examined, among other issues, how the poorest countries globally will be more heavily impacted by climate change, and the importance of U.S. engagement in multilateral fora, especially at the World Bank, where U.S. leadership could move the Bank towards more clean energy projects.

Developing Countries at Risk of Debt Distress. Members of the Committee offered the following legislation related to developing countries at risk of debt distress:

- Representative Jesus “Chuy” García and Chairwoman Maxine Waters offered an amendment based on H.R. 6581, the “Robust International Response to Pandemic Act,” introduced by Representative Jesus “Chuy” García, directing the Secretary of Treasury to support a \$2 trillion allocation of Special Drawing Rights at the International Monetary Fund to help developing countries respond to the health and economic impacts of the COVID–19 pandemic; to advocate for a suspension of debt service payments by IDA countries to the international financial institutions; and to work to extend the current moratorium on debt service payments by IDA countries to the G20 group of nations until the end of 2021. The amendment passed the House as part of H.R. 7617, the second FY2021 Consolidated Appropriations Act, on July 31, 2020, and again on October 1, 2020, as part of H.R. 925.
