

**AMENDMENT
TO THE
VIEWS AND ESTIMATES OF THE
COMMITTEE ON FINANCIAL SERVICES OFFERED ON MATTERS TO
BE SET FORTH IN THE CONCURRENT RESOLUTION ON THE
BUDGET FOR FISCAL YEAR 2022**

OFFERED BY:

Mr. Huizenga (MI)

On page 18, after the period, insert: “The Committee will work to ensure that everyday investors have as many investment opportunities as possible, subject to appropriate investor protections.

This includes protecting recent regulatory efforts to expand the definition of “accredited investor” as well as considering legislation to further expand on these regulatory improvements.

The Committee should consider legislation that will provide further investment opportunities for everyday investors, whether through direct investment, expanding compensation opportunities for startups and their workforce, or allowing for investment in private companies through pooled investment vehicles.”
